PREFACE

This index has been compiled to mark 21 editions of the SWSHAS Journal. From 1989 until 2004 the editorship was in the guiding hands of *John Smyth*, who shaped and nurtured the Journal during those years. *Patricia Theobald* assisted him during 2002-2004, becoming this Journal's second editor from 2005 onwards.

Both editors have wished to maintain a balance between academic research and **informed reporting**. Over the period since the first issue of 'The Journal' there have been a variety of articles and contributions which record the research and writing up of the history and archaeology of our area.

The index is arranged in four sections with access via volume, author, review and subject.
